BALTIMORE, MAY 5, 1917.

During the week there has come to our attention the fact that serious incroads have been made in the forage crop acreage. Forage is just as important as food and we suggest you use every means in your power to have the farmers sow all the leguminous forage crops possible.

Prices of practically all seeds have had a higher tendency this week, some of them materially so. We can still supply limited quantities of high grade seeds and suggest you supply yourself at once. Our seed grain is of "Oriole" quality.

OWING TO THE EXTREMELY UNSETTLED CONDITIONS, ALL PRICES NAMED BELOW ARE STRICTLY SUBJECT TO OUR CONFIRMATION.

TESTS given below are obtained in our own Seed Laboratory in charge of an expert Seed Analyst. Our Laboratory is fully equipped and we are in position to comply with the PURE SEED LAWS of all States.

We quote today's values F. O. B. Baltimore. Should the market be lower when your order reaches us, will give you benefit of decline. No charge for drayage. To cover extra cost, items of less than a full bag are charged a shade higher. Bags not returnable. Orders received up to 3 p. m. will be shipped same day.
